

Problem

You are given two integers A and B. Your task is to calculate their sum without using the + or - operators.

Use only bitwise operators to compute the result.

Input Format

A B

Constraints

$-10^9 \leq A, B \leq 10^9$

Output Format

Print a single integer representing the sum.

```
1 # Enter your code here. Read input from STDIN. Print output to STDOUT
2 n,m = map(int,input().split())
3 while(m!=0):
4     carry = n&m
5     n = n^m
6     m = carry<<1
7 print(n)
8
```
